Orientation

- ★ Why do we support Sports Day at elementary school ?
- ★ Contents of the support
(e.g. why is parking area at school for guardian and neighborhoods.)

Listened to the talk from vice principle carefully.

Ok, let's begin our work!

Making seats for audiences from neighbors in tents.

Leading cars to the parking is an important job. Neighbors from each temporary house at different region came to this event by a car. They've been looking forward to the sports day because they have strong desire to back to the place or communities they used to belong.

Keep children in a right order after running a sprint...

Don't miss any instruction from the principle.

Volunteer students got together with neighbors into the event !

Come and join the ball-toss game, small kids!

25 volunteer students made a comment to express thank to neighbors at the end of the event.

As sheets were wet, we couldn't fold up tents until they are dried.

We held a small meeting to review our support at SCRE's office near the Kleenex baseball stadium. Both teachers and students can use the office anytime for volunteering.
