

Support for supplemental study meeting at Rokugo Junior High School

- 1 Date&Time Tuesday, June 19th to Thursday, June 21st 4 p.m. to 5 p.m.
- 2 Place Rokugo Junior High School, public school in Sendai City
- 3 Participants on 19th 2 students • on 21st 6 students
(First year :1, Fourth year 1) (First year : 5, Fourth year : 1)
- 4 Activities giving an advice for students who is studying by themselves.
Because 3rd year students at Rokugo Junior High School had to prepare for mid-term examination, volunteer students gave a detailed advice of each subject, such as English, Math and Science with teachers.

Junior high school students chose any subjects they want to focus on at this supportive work, and teachers of each subject gave a brief instruction how to conduct own studies. Learners were working very hard for their studies with work books or text books prepared by themselves. Volunteer college students seemed nervous at first, especially for 1st year students who participated in a supportive work for study. However, as MUE students are future teachers, they soon got ready to give proper advice and answer to any questions from learners with good & relaxing atmosphere. Junior high school students were also got relaxed to ask many questions and could concentrate on their studies. Good job, MUE students & Rokugo Junior High students! This work went very well!!
